

Mint Sept 2nd 1839

Dear Prof. ^r

Cumac is now here
at the mint, looking over some
coins, and I send your message
to Janet, concerning the Blank
check, thro. him

I had been speaking to the
Col^l concerning you yesterday
and in reply to his query,
supposed that you would
be here on Monday, or
Wednesday, when I rec^d your
letter stating your intention
of staying 10 or 12 days longer
of which fact I informed
him, and his highness was
pleased to signify his gracious

approval, which, however,
was not asked,

There is nothing doing special
that requires your attention
Messrs Coffin of H. Sadonfield?
called at the Mint concerning
the purchase of the small
balance. If they should call
again (as I think probable early
in the week) I should like
to be informed as to the terms
upon which you propose to
sell it, and whether the weights
should be sold with it.

I believe Mr. Coffin Jr wishes
to leave town early in the
ensuing week so that if
I knew the terms he might
be accommodated in his
desire to take the balance
with him

Truly your friend
Wm C. Booth } John W. Taylor
Atlantic City }
